OBJECTIVES

To obtain a challenging position where I can apply my technical skills, problem-solving abilities, and professional experience to contribute to organizational success. I am eager to continuously learn, adapt to new technologies, skills, and grow within a dynamic work environment while delivering high-quality service and support.

WORK EXPERIENCE

Pampanga State Agricultural University | PAC, San Agustin, Magalang, Pampanga

Technical Staff (Web Developer) | June 2025 – June 2026 (COS)

- Led the full-stack development lifecycle of the university’s web systems, including requirements gathering, planning, development, testing, and deployment preparation.
- Developed and maintained web applications using Laravel, PHP, MySQL, Eloquent ORM, REST APIs, database migrations, and Blade templating to deliver scalable internal solutions.
- Designed and implemented a centralized Knowledge Management Platform that improved information accessibility and streamlined content management across departments.
- Built and optimized responsive web interfaces using Bootstrap, JavaScript, and AJAX, improving usability and cross-device compatibility.
- Managed Git/GitHub workflows, performed debugging, and mentored IT OJT students through technical guidance and task supervision.

Superl Philippines Inc. |Angeles Industrial Park, Bacolor, Pampanga

IT Hardware Support | January 2025 – June 2025)

- Provided remote and on-site IT support across factory operations, ensuring system availability and minimizing downtime.
- Diagnosed and resolved hardware, software, and network issues involving computers, printers, analog phones, switches, and industrial applications.
- Maintained and optimized network infrastructure to improve connectivity and reliability of production systems.
- Installed, configured, and troubleshoot CCTV systems to support security monitoring and facility operations.

Hausland Group | Pulung Maragul, Angeles City, Pampanga

IT Technical Support (Internship)

February 2024 – May 2024 (486hrs)

- Provided technical support by diagnosing and resolving hardware, software, and printer issues to improve user productivity.
- Troubleshoot remote technical problems and assisted employees in resolving system errors to minimize workflow interruptions.
- Installed, configured, and upgraded operating systems, software applications, and computer hardware to ensure system functionality.
- Deployed and prepared new computer units through hardware setup, software installation, configuration, and user assistance.

McDonald's Magalang | San Nicolas I, Magalang, Pampanga

Service Crew | August 2021 - January 2025

- Prepared and assembled customer orders according to company standards, ensuring accuracy, consistency, and quality service.
- Delivered timely and efficient food preparation during peak hours while maintaining productivity and customer satisfaction.
- Maintained cleanliness, sanitation, and compliance with food safety and workplace safety procedures.
- Collaborated with team members to support daily operations, improve workflow efficiency, and maintain a positive service environment.

TECHNICAL SKILLS

- Web Development: Laravel, PHP, MySQL, HTML, CSS, JavaScript, Bootstrap, WordPress, React.js, Firebase; AJAX, Blade templates, responsive design, REST APIs, JSON/XML.
- Backend & Tools: Composer, Git/GitHub, database management (migrations, Eloquent ORM), debugging, browser dev tools, and AI-assisted development such as Lovable ai, Codex, Cursor, Chat GPT, Claude code, Copilot, Deep Seek and more.
- IT & Network Support: Troubleshooting computers, printers, phones, switches, industrial machines; basic structured cabling and connectivity.
- CCTV Systems: Installation, setup, and maintenance.

SOFT SKILLS

- Problem-Solving and Critical Thinking
- Communication and Team Collaboration
- Time Management and Task Prioritization
- Adaptability and Continuous Learning
- Attention to Detail and Quality Assurance
- Customer/User Support Orientation
